

## DNV Accelerator

### CV of Chief Executive Officer

## Liv A. Hovem

Norwegian citizen

Born 1964

Master of Science UC Berkeley Naval Arch and Offshore Eng.

Master of Science NTH Civil Engineering

As Chief Executive Officer of DNV's Accelerator business area, Liv A. Hovem leads a multinational team in identifying initiatives with high growth potential within Digital Health, Cyber Security and Inspection, and boosting their impact through organic growth, acquisitions and partnerships. She builds and scales businesses and technologies that manage risk and increase stakeholder trust. Liv has experience in leading successful international businesses across multiple industries, including the maritime and energy sectors. She has a special interest in technology research and innovation, business model innovation and agile ways of working to nurture rapid business growth. She has served as a board member in several R&D related institutions. She joined DNV in 1988.
